OBJECTIVE

Highly motivated and innovative recent graduate with a passion for leveraging cutting-edge technologies in Cloud Computing, Machine Learning, and Python programming. Eager to contribute to dynamic teams, utilizing strong analytical skills and a solid foundation in cloud infrastructure. Seeking an entry-level position where I can apply my skills to solve complex problems, drive innovation, and continuously enhance my expertise in the rapidly evolving tech landscape.

EDUCATION

B-Tech, CSE	Jan 2021 — Present
R.V.R&J.C College Of Engineering	8.09
Intermediate	2019 — 2020
Sri Chaitanya Junior College	9.54
SSC	2017 — 2018
Municipal Boys High School	9.7

WORK EXPERIENCE

Data Analytics Intern, AICTE-Eduskills May 2023 — Jul 2023
- Proficient in leveraging cloud-based solutions for data storage, processing, and analysis. Hands-on experience with AWS services such as S3, Glue, Athena, and Redshift.
- Skilled in designing and implementing scalable and cost-effective data pipelines. Proven ability to extract actionable insights from large datasets, ensuring data-driven decision-making.

Machine Learning Trainee, Indian Servers Apr 2022 — Jun 2022
-developed machine learning models for classification and regression.
- Investigated and tested various machine learning algorithms to improve accuracy and efficiency.
- Trained and tested learning algorithms using Python libraries such as ScikitLearn and Tensor flow.

PROJECTS

Static Web Hosting in AWS S3 2023 — 2023
Experienced professional specializing in static web hosting using Amazon S3. Adept at designing and implementing secure and efficient web hosting solutions. demonstrated proficiency in configuring S3 buckets, setting up static websites, and optimizing performance.

Machine Learning Chatbot
Created an Machine learning chatbot which can answer cricket related queries

CERTIFICATIONS
